PROFESSIONAL SUMMARY

Artificial Intelligence student with corporate experience in administrative routines and ticket management (ServiceNow). Passionate about automation and software development, with hands-on experience building web applications and API integrations using Python, JavaScript, SQL and cloud tools. Seeking an IT opportunity to apply my problem-solving and programming skills to real-world projects.

TECHNICAL AND SOFT SKILLS

- **Hard Skills:** Python, JavaScript, SQL, HTML5, CSS; Prompt Engineering, AI Agents, Vector Databases; REST API integration (ViaCEP, Gemini API), FastAPI; Cloud/Deploy (GitHub, Supabase, Render, Backblaze B2); ServiceNow, FFmpeg, yt-dlp.
- **Soft Skills:** Effective Communication, Proactivity, Problem Solving, Organization and Time Management, Teamwork, Adaptability.

PROFESSIONAL EXPERIENCE

Coca-Cola FEMSA | Santos - SP
HR Apprentice, Shared Services Center | January 2026 – Present

- Manage and resolve corporate tickets on the ServiceNow platform, providing administrative support and ensuring service-level agreements (SLAs) are met and internal customers are satisfied.
- Streamline operational processes by organizing and digitizing documents, and by maintaining and updating the Shared Services Center's corporate spreadsheets.

Express Courier | Praia Grande - SP
Office Assistant | March 2025 – August 2025

- Coordinated the logistics flow and sorting of equipment (PagSeguro card machines), providing direct operational support to field technicians.
- Managed back-office routines and schedules, organizing the flow of physical and digital documents and assisting the finance team with invoice verification.

FEATURED PROJECTS

- **AI Resume Agent (Viva+):** Developed an AI web app for automated, unbiased recruitment, with file upload (PDF/DOCX), data extraction and ethical profile matching, backed by cloud infrastructure and a database resilient to demand spikes.
- **DigiKof:** Built a responsive web app for document digitization and management, implementing image processing, a folder system, internal search and protected login.
- **Corporate Website and CMS (Viva+):** Developed a corporate website in HTML, CSS and JavaScript with AI assistance (Claude), integrating an admin panel so non-technical teams can update the content.
- **Interactive Portfolio:** Used prompt engineering and the orchestration of generative AI tools (Gemini, Claude) to refactor code, build smooth animations and deliver a clean, polished interface.

EDUCATION

- **Technology Degree (Tecnólogo) in Artificial Intelligence** – Universidade Santa Cecília | *Expected: July 2028*

COURSES AND EXTRACURRICULARS

- **IT Infrastructure Management** – FIAP Nano Courses (In progress)
- **Computer Assembly, Maintenance and Optimization** – Kingston Maker (September 2026)
- **Ethics in the Age of AI** – Fundação Bradesco (September 2026)
- **Vector Databases Bootcamp** – Oracle Academy AI Student Labs (October 2026)
- **IT Fundamentals: Hardware and Software** – Fundação Bradesco (February 2026)
- **Build a Simple Website Using HTML, CSS and JavaScript** – Fundação Bradesco (February 2026)
- **Internet Basics** – IBM SkillsBuild (January 2025)

LANGUAGES

- **Portuguese:** Native
- **English:** Intermediate
